## Financial Aid Appeal

2022-23

Student Name:

The Office of Financial Aid understands that sometimes there are special circumstances not included on the FAFSA that affect a families overall financial picture. Parents and students may request a financial aid appeal for a review of such factors. The Professional Judgement committee will review all cases, and may increase government and/or institutional financial aid at their discretion. All appeals must be accompanied by supporting documentation in order to be considered, and all decisions are made on an individual basis.

Below are some possible special circumstances. If the information was already reported on the Institutional Scholarship Application, you may indicate "see ISA".

5. Investment adjustment – Include reason for requesting an adjustment
